

Gasket Man cc

Data Specifications Sheet

Neoprene Commercial Grade

Neoprene commercial grade is a medium grade rubber sheeting with a fabric finish.

General Properties

Medium grade CR, suitable for most applications as for high grade . Blended with NR/SBR..

Technical Specifications

Applications	Oil, Fuel, External weathering
Finish	Fabric
Colour	Red
Shore Hardness	70 ±5
Specific Gravity (SG)	1.5
Ozone Resistance	Good
Tensile Strength MPA	3.5
Elongation @ break %	280
Compression Set %	64.8
Temperature Range	-20°C to +100°C

Positives

Resistance to oils and greases
Temperature range up to 100°C
Resistant to ozone and ultra-violet
Fair abrasion resistance

Negatives

Not resistant to liquid fuels
High cost
Only moderate physical performance
